PRODUCT LIST

TIMOTHY HAY (2.54cu. ft, 50-55 lbs)

100% Timothy hay—a grass hay with the high roughage content necessary to facilitate good digestion. The consistent quality provides basic protein levels while keeping the gut healthy. Available individually or in pallets of 24.

ALFALFA MIX HAY (2.38cu. ft, 50-55 lbs)

Alfalfa timothy mix hay combines the superior in protein alfalfa (reducing the necessity for alternative protein supplements) with Timothy hay to provide a quality performance horse feed. Together they provide a balance of fiber with protein to optimize digestive health. Available individually or in pallets of 24.

COARSE SHAVINGS (3.0cu. ft, 35lbs)

We specialize in the recovery of sawmill waste in an endeavor to reduce our carbon footprint. Our shavings are premium screened wood free of dust and debris—compressed into weather resistant bags making them ready to use and easy to handle. We offer a coarse or fine product, both an excellent choice for animal bedding and absorbing moisture. Available individually or in pallets (minimum 25/pallet, maximum 45/pallet).

FINE SHAVINGS (3.0cu. ft, 45lbs)

FINE STRAW (3.0cu. ft, 25lbs)

Simply Straw manufactures and processes wheat straw, refining it into animal bedding. Simply Straw chops the straw into small highly absorbent pieces and then puts the straw into a dust extraction chamber to remove the majority of dust, allergens, chaff, and other foreign material. Each compressed bag is filled with approximately 10 cubic feet of highly absorbent straw. Available in coarse and fine cut. Available individually or in pallets (minimum 25/pallet, maximum 45/pallet).

COARSE STRAW (3.0cu. ft, 25lbs)

PELLETS (40lb bags)

North Country Softwood Pellets are 100% natural wood pellets. Low ash and low moisture, wood pellets are made from wood shavings dried and then compacted into pellets. Pellets function as a natural antiseptic and produce a light and fluffy bedding for horses and other livestock.
